

AN EXCITING EVENT FOR 2017!!

From the beginning, railroads intrigued and fascinated people. No less, the artists who saw fit to direct their talents to chronicling the evolution and growth of the railroads with sketches, drawings and pictures.

It was not long before a genre of artists became known for their works and the railroad subject matter. The public's love of the steam belching monsters that shook the earth as they passed, and the men who rode and worked on these behemoths were quickly to become heroic in the artist's portrayals.

To mention just a few of the early American artists, Herb Mott, Howard Fogg, Ted Rose, Greif Teller, and others, lead the way for those that would follow.

There are numerous museums throughout the United States dedicated to railroading in all its aspects, and we have established an Art Gallery in the museum, dedicated, in part, to the railroad artists and their works.

The Art Gallery, at The Little Falls Railroad & Doll Museum LTD has, over the last twenty two years, collected, and exhibited, many original, and limited edition prints, from many of the masters and then upcoming artists.

To celebrate our entrance into our third decade, we have invited a number of excellent "Railroad" artists to join us in a PREMIER MEET THE ARTISTS gathering, at the museum.

They will be exhibiting their works July 29-30 2017, from ten to five at the Art Gallery 9208 CTY HWY 11 for the public to view (and acquire).
